Please circulate this Newsletter to your colleagues.

CIPHA is the Cheshire and Merseyside COVID-19 integrated data platform which provides live data in the form of dashboards for clinical direct care and for Intelligence teams.

This data comes from Acute Trusts, General Practice, Community, Mental Health, Local Authority and 999,111 live data feeds.

The CIPHA platform is LIVE for user groups

Live Reports

COVID Epidemiology

This report shows stratified cases, suspected cases, mortality and people receiving tests by characteristics including age, condition, deprivation and BAME, and over time.

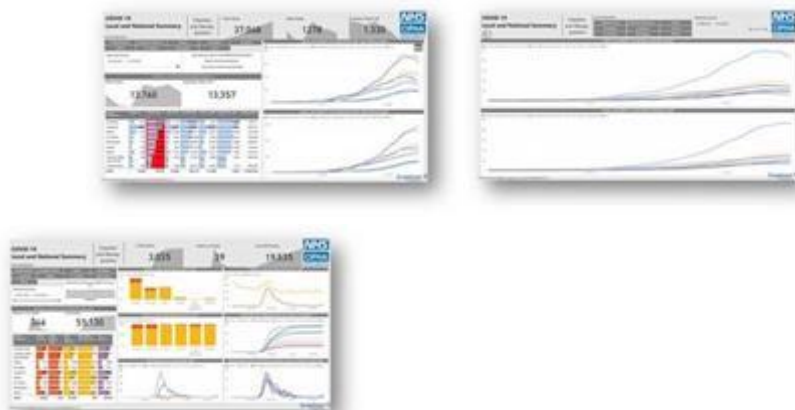

COVID Test Results on Admission

This report will enable hospital trusts to access COVID test results for patients who are admitted into their hospital. The report works on the basis of a NHS number or name look up and returns any COVID results for that individual, if one exists.

COVID Out of Hospital Capacity & Demand

This report shows capacity and demand for hospital, ready for discharge, care homes, domiciliary care, mental health and community providers.

COVID National & Sitrep

This report shows COVID cases, mortality and admissions. It compares trends over time and compares rates by different geographies and providers.

COVID Testing Report

This report shows numbers, rates, positivity rates of those testing positive. Also homes, schools and organisations that have had an outbreak against the national definitions.

Hospital Admission Report

This report shows the number of COVID admissions and bed availability in hospital trusts.

Reports moving into Live this week

Flu Vaccination

This report shows flu vaccination invitation and uptake rates stratified by different characteristics including age, condition and deprivation, and BAME.

COVID Monitoring & Tracking

This report shows cases, suspected cases and testing hotspots, with geographic and patient level drill down for those involved in the front line response.

Reports in Development and available in the coming weeks
